Presentation Brochure

An inspiring coworking for teams and creative
minds.

The story began with **Anouk and Coline**, founders of **OOO**. Together, they've spent years imagining and designing spaces that shape the way people work, meet and feel.

OOO was born from one belief: that the environments we create influence everything, our focus, our creativity, our culture.

And then came the next step.

They wanted a place where everything they design, imagine and believe in could come to life, **in real space**
A living house where creativity meets hospitality and community.

That's how the **OOO House** came to be, a place where three worlds connect:

- OOO, the creative studio where ideas are born
- StudiOOO 925, the coworking & event space that brings people together
- Met Plaizier, the café next door, open to all
