

STUDIOOOO  
925

# Presentation Brochure

**An inspiring space for workshops, offsites, creative gatherings & meaningful moments.**

At OOO, we believe that the way we work shapes what we create.

With StudiOOO 925, we've imagined a physical space that brings that belief to life. A living ecosystem designed for the rhythm of modern work:

A bright, modular event space where people gather, connect, reflect and create together. Brick walls, warm wood and open tables set the tone. A large flexible room with multiple alcoves for group work and a plenary area for presentations, workshops or collective sessions.

Catering is provided by Met Plaizier, our café next door, served directly in the studio. Fresh, seasonal and homemade food prepared by our chef.

The story began with **Anouk and Coline**, founders of **ooo**. Together, they've spent years imagining and designing spaces that shape the way people work, meet and feel.

**ooo was born from one belief: that the environments we create influence everything, our focus, our creativity, our culture.**

And then came the next step.

They wanted a place where everything they design, imagine and believe in could come to life, **in real space**  
**A living house where creativity meets hospitality and community.**

That's how the **ooo House** came to be, a place where three worlds connect:

- **ooo**, the creative studio where ideas are born
- **StudiOOO 925**, the coworking & event space that brings people together
- **Met Plaizier**, the café next door, open to all
